

“My PKU Story” by Lucas Brotherton

Hi, my name is Lucas Brotherton and I am six and a half years old. I have Classical PKU. I am in Kindergarten and my teacher is really nice. On Fridays she brings her dog to school for the day. The dogs name is Sassafra and during the day she plays with us. My best subjects are math, art, and science. When I get home from school I love to ride my bike, play soccer and each day I practice Tae Kwon Do. I take my test for my yellow belt in 19 days and I want to go on to become a Tae Kwon Do black belt master. I like to read Chapter books with help from my Mom and Dad. Right now I am reading the adventures of the Lion Boy.

My favorite foods are macaroni cheese, French fries and bubble and squeak. Dad makes me a special delicious onion soup. My nanny cooks me foods from different countries and granddad shows me where the countries are on a map. I love my lopro Phenex 2 milk and I never mind drinking it! My favorite restaurant is Chick-fil-a where I always get French fries and a salad. I don't have a dog but I would like one. Dad says “not just yet”. My Auntie Adele lives near me and she has two cats. One of them is mine. The cat's name is Avery and she has long hair. She likes to be stroked and purrs lots. She is 18 years old which is very old for a cat.

When I grow up I want to be an Artist, or an Engineer or an Astronaut or a NASCAR driver.
